THE INSTITUTION OF BRITISH TELECOMMUNICATIONS ENGINEERS

(Founded as the Institution of Post Office Electrical Engineers in 1906)

ABBREVIATED LIBRARY CATALOGUE 1970–1986

The IBTE Library has over 2500 books, collected since the earliest days of the Institution. Many of the books are on engineering subjects related to telephony and telegraphy, whilst others cover a wide field of general technical interest.

The abbreviated catalogue on these pages lists many of the books introduced into the library in the past 16 years, and will be convenient for members wishing to know which recent books are available. A full catalogue including all the books of historical interest is available from the Librarian (IBTE Library, 2–12 Gresham Street, London EC2V 7AG). Members can borrow books from the Library by completing a Library requisition form, available from the Librarian or Local-Centre Secretaries.

In recent years, the IBTE library has been under used and its future is now dependent upon increased borrowings.

IF YOU VALUE IT, PLEASE USE IT.

INDEX

For your convenience, the abbreviated catalogue has been divided into the following headings:

- 1 Computers—hardware
- 2 Computers—software
- 3 Electrical engineering
- 4 Electronics—components and circuits
- 5 General
- 6 Hobbies and DIY
- 7 Management and business
- 8 Mathematics
- 9 Mechanical and civil engineering
- 10 Miscellaneous technical
- 11 Telecommunications
- 12 Television and radio
